In any event, the Specification will be published without restriction as a copyrighted work. In addition, Sun will grant a royalty free license under Sun's applicable intellectual property rights for each Specification for which a fully compatible implementation can be created without use of its Reference Implementation ("Independent Implementations"). II. If the Contribution is incorporated into the Specification under this Section 3 C, the Contribution may only be included as an optional portion of the Specification, and You must agree not to assert any intellectual property rights in any interface to such Contribution defined in the Specification.

4. CONFIDENTIALITY.

A. Definition. The information to be exchanged by Sun and You under this Agreement ("Information") relates to development of the Specification and corresponding Reference Implementations and Compatibility Test Suites. In particular, Information is likely to take the form of draft specifications promulgated by the Specification Lead and the Expert Group, and comments relating thereto from Participants, which will be shared among Participants pursuant to terms and conditions consistent with those of this Agreement. This Agreement applies only to such Information, and not to any other comments, materials or ideas exchanged between You and Sun.

B. Duty of Confidentiality. The confidentiality obligations in this Agreement relate only to Information which is disclosed during the term of this Agreement. Parties may disclose Information to subsidiaries and/or to third party contractors who have entered into a written confidentiality agreement at least as restrictive as the terms of this Section 4.

E. **Residuals.** This Agreement is not intended to prevent the receiving party from using Residual Knowledge, subject to any valid patents and copyrights of the disclosing party. Residual Knowledge means Information that is retained in the unaided memories of the receiving party's employees who have had access to Information. Further, both parties recognize that their receipt of Information under this Agreement shall not create an obligation in any way limiting or restricting the work assignments of employees within either party's organization.

5. TERM AND TERMINATION. This Agreement shall commence on the Effective Date and continue for a period of one (1) year, and shall automatically renew each anniversary date thereafter until either party provides notice to the other of its intent to terminate the Agreement at least sixty (60) days prior to the next anniversary date. In such event, the agreement shall terminate on such anniversary date.

6. Publicity. Except for those public announcements (and other communications having a similar effect) made pursuant to the Process, no public announcements regarding the development of any Specification may be made by You without the concurrence of the Expert Group for such Specification, until the Specification has been released for public review.

7. Expert Group Additional Terms and Conditions. If You are a member of an Expert Group and participate in the development of the Specification to completion, the associated Maintenance Fee for the Reference Implementation and Compatibility Test Suites for such Specification is waived for the first year. Thereafter, You are subject to the annual Maintenance Fee to the extent that you desire to continue licensing the Reference Implementation and Compatibility Test Suite for such Specification. The annual Maintenance Fee is waived for the Specification Lead for so long as the Specification Lead maintains the Reference Implementation and Compatibility Test Suites for such Specification. In addition, You agree to pay a pro rata share of the actual cost of auditing the Process for developing the Specification for which you are a member of the Expert Group. Such costs are estimated not to exceed U.S.\$50,000 for the entire Expert Group.

8. Disclaimer of Warranties and Special Damages. Information and any Contributions are delivered "AS IS", and all representations and warranties, express or implied, including fitness for a particular purpose and merchantability, are hereby disclaimed. No party shall be liable for any special, incidental, consequential or punitive damages by reason of any alleged breach of this Agreement based on any theory of liability.

9. Survival. The rights and obligations of Sections 3, 4, 8, 9, and 10 shall survive any termination of this Agreement:

10. Miscellaneous. This Agreement, including Exhibit A, constitutes the entire agreement between the parties concerning its subject matter, except for any Technology License and Distribution Agreement or Sun Community Source Code License Agreement between You and Sun, which shall take precedence to the extent of any conflict between their intellectual property terms and those of this Agreement. All additions or modifications to this Agreement must be made in writing and must be signed by an authorized representative of each party. The parties agree to comply strictly with all applicable export control laws and regulations. Any action related to this Agreement will be governed by California law, excluding choice of law rules.
